

Features

- High density with integrated splice storage
- May be pre-terminated with pigtailed of any length or MTP for easy installation
- Most connector and polish types can be used
- Mounting brackets for wall mount and rack mount available. This allows the cassettes to be implemented independent of larger FDUs
- Recommended for use with the BJ-2214/16/18 enclosures, but are compatible with all Bejed rack mount and wall mount FDUs

Application

Our line of fully protected and configured fan-out assembly cassettes provide users with a seamless solution for their individual application needs. The Bejed line of cassettes give increased density while improving reliability and lowering costs.
